

PWSA (USA) is the largest PWS support organization in the world and we want to support *you!* We maintain age groups on Facebook for members who have a loved one diagnosed with Prader-Willi syndrome (PWS). These online Support Groups provide a safe place for learning, sharing and connecting with Parent Mentors and families all over the world. This is *the* place to ask questions, share experiences, and build friendships with families of children the same age as yours... all in a hopeful, supportive environment. Groups are private, invitation-only, moderated by PWSA (USA) staff and open to all PWSA (USA) members who would like to receive online support.
