

## Tips for how to use PWSA (USA)'s Wyatt Special Education Advocacy Training (WSEAT)

### **Tips for Parents of a Student who does not have PWS**

We are happy you are visiting the WSEAT. While the WSEAT was created for the Prader-Willi syndrome community it can also be helpful to parents in other disability communities in the following ways:

- Modules 1-4 and 7 include information that will be useful to any parent of a school aged child with a disability.
- The downloadable resources attached to each module also contain relevant information for you.
- The additional resource page offers additional information you will find helpful.
