#### \* ATTENTION WAIT STAFF \*

An individual you are serving has Prader-Willi syndrome (PWS). Children born with this syndrome have an insatiable appetite due to an impaired message to the brain that always triggers "hunger" never "full". They also gain weight with fewer calories. Because of this, these individuals are kept on a very strict diet to avoid life-threatening obesity. We respectfully ask that you not offer extras such as bread, butter, desserts, or even extra drinks, unless they are diet.

> We appreciate your cooperation! PWSA | USA • (941) 312-0400 www.pwsausa.org
